

Model AES30D electronic postal scale. For the medium-size office.

Capacity to 30 pounds

The AES30D electronic scale features a new, simplified keyboard layout which is easier to use. The scale will instantly compute and display the exact major USPS and UPS rates and special services, if required, for all mail weighing up to thirty pounds. Wasted postage will be a thing of the past.

Precision, loadcell technology guarantees the optimum in savings for your office mailing operations. With both USPS and UPS rate information, this versatile, fully featured electronic scale is perfect for the medium-size office.

- New, simplified keyboard layout
- Extra-large weighing platform
- Easy-to-read digital display
- Twelve USPS mail classifications
- Easy-to-operate keys — with audio response — for error-free selection of USPS and UPS Classes and Special Services
- “Comparison Shopping” feature
- Ten UPS rates
- Easy-to-change postal rate chips
- Automatic ZIP-to-Zone conversion
- Postage meter interface
- Portable and compact

The Model AES30D electronic postal scale

All these special benefits at no extra cost:

Electronic accuracy

Electronic loadcell technology provides accuracy to 1/10 of an ounce. Now, mail can contain the maximum weight for postage paid.

Large, bright, digital display

The easy-to-read, alphanumeric display prevents visual error, helping to save even more postage.

Versatile performance

All normal office mail – envelopes, flats, parcels and tubes – is easily handled. The maximum displayed weight is 30 lbs. The weighing platform is a full 10" by 6-5/8".

Audio key press

Each key press initiates an audio "beep" to confirm key actuation to the operator.

ZIP-to-Zone conversion

Automatically converts the ZIP code to the proper zone to eliminate the chance of error. USPS and UPS.

Operator prompting

Displays messages requesting additional input as necessary. This helps to avoid errors, saves time and eliminates wasted postage.

Compact and portable

No larger than a 10" x 12" envelope, and with the same small footprint of the 10 lb. scale, the AES30D saves valuable desktop space. Weighs just 5 lbs., 8 oz.

Class of mail

With 18 major rates available, the AES30D provides greater versatility than any other electronic scale of this compact size and low cost.

Rate comparison

The "comparison shopping" feature permits the operator to compare related USPS and UPS rates. The least expensive shipping mode is quickly identified.

Meter interface

This versatile scale will interface with all Hasler mailing machines, including the new WhisperJet 135 and 180 digital systems, to set the displayed postage rate.

Easy postal rate changes

When necessary, the operator can quickly and easily replace the rate microchip and avoid delays in mail processing.
